## AIRPORTS

Army of men and equipment reaches for production record on air-base grading job (Richard I. Bong AFB)--Jan., p. 46  
Scrapers work six weeks to place 450,000 yards of surcharge for taxiways--Feb., p. 20  
Complete new runway with jet speed (Olmsted AFB)--Mar., p. 6  
Suspended roof of new hangar carries structural loads (Hanscom AFB)--Mar., p. 16  
High-output concrete plant feeds multi-paver spreads (Griffiss AFB)--Apr., p. 6  
Air base is kept operative through apron, runway paving (Larson AFB)--May, p. 62  
Special rigs prove their worth on Air National Guard Project--May, p. 104  
Drill excavates bases for taxiway lighting--June, p. 86  
Form contraction joints with plastic strips (McCain Field)--Aug., p. 40  
Aggregate production: big job at air base (Glasgow AFB)--Sept., p. 30  
Compact grade for air-base runway (Amarillo AFB)--Sept., p. 86  
Mammoth fleet to move earth (Dulles International Airport)--Oct., p. 161  
Post-tensioning for taxiway pavement (Biggs AFB)--Nov., p. 27

## BRIDGES

Two-deck 1,968-foot bridge being built across Vistula--Jan., p. 6  
Steel caisson fabrication for Throgs Neck Bridge piers becomes a project in itself--Jan., p. 66  
Regular methods and a new type of bridge (Fort Pitt Bridge)--Feb., p. 6  
Bridge deck is formed on natural ground--excavation follows--Feb., p. 80  
Relocation of utilities is big job on expressway--Mar., p. 82  
Highest steel arch bridge completed at Glen Canyon--Apr., p. 44  
Time element dictates method of constructing thin-shell arch bridge--Apr., p. 80  
Shoring system for bridges keeps channels clear during work on spans--May, p. 72  
New forming method, cap-form support cuts work time on bridge piers--May, p. 84

## BRIDGES (Cont.)

Big plate girders are set for bridge over railroads--May, p. 96  
Seven-stage work schedule for 22-track overpass keeps rail traffic moving--May, p. 124  
Diesel hammers post good record on bridge project--June, p. 12  
Giant amphibious derrick makes 250-foot lifts--June, p. 16  
Aluminum for a new bridge--June, p. 30  
Balanced-weight erection minimizes need for falsework (Hudson River Bridge)--June, p. 70  
Paper tubes save on deck concrete--July, p. 106  
High single lifts for bridge piers--Aug., p. 5  
King-sized steel pans simplify deck forming--Aug., p. 90  
Big railroad grade separation requires 7,200 tons of steel--Sept., p. 8  
Heating plant keeps concrete work on time (Throgs Neck Bridge)--Oct., p. 48  
Red-hot production in ice-cold weather--Oct., p. 74  
Tough going on bridge-pier cofferdams--Nov., p. 13  
Bridge span is post-tensioned--Nov., p. 32  
Steel bars simplify girder post-tensioning--Nov., p. 90  
Tarps, blankets protect concrete from cold--Dec., p. 63

## BUILDING CONSTRUCTION

The Air Force Academy's physical education building--Jan., p. 52  
Work time cut by two-thirds for concrete operation on hyperbolic paraboloid roof--Jan., p. 56  
Large columns raised in delicate operation--Jan., p. 59  
Steel domes aid forming of waffle-type slabs for highway headquarters--Jan., p. 132  
Lightweight arches of steel form gym roof--Feb., p. 58  
Suspended roof of new hangar carries structural loads--Mar., p. 16  
Building in a steel ball poses special problems--Mar., p. 24

## BUILDING CONSTRUCTION (Cont.)

Adding zip to gasoline makes big construction job--Mar., p. 44  
 Four contractors build large shopping center--Apr., p. 10  
 Intricate footings, ramps complicate garage project--Apr., p. 146  
 Contractor meets tough spec for unusual transmitter house--May, p. 61  
 Heavy tilt-up slabs set as exterior facing for steel-frame buildings--May, p. 134  
 Form concrete floors in half the usual time--June, p. 34  
 Special methods speed curtain-wall erection--June, p. 64  
 A new hotel--with an old look--July, p. 6  
 Prefabricated forming keeps job to schedule--July, p. 16  
 Ease derrick load and operation (Chase Manhattan Bank)--Aug., p. 6  
 Slip-forming round the clock--Aug., p. 46  
 Laminated wood arches span 215 feet--Sept., p. 10  
 Aluminum dome goes up in two weeks--Sept., p. 16  
 Nuclear plant demands new construction ideas--Sept., p. 22  
 Heavy work required for odd-shaped plant--Oct., p. 11  
 Roofing and painting in winter weather--Oct., p. 30  
 Filtration plant project keeps going through winter--Oct., p. 54  
 Welding rebars on winter job saves money--Oct., p. 68  
 Tower crane handles variety of jobs on building--Oct., p. 163  
 New home for the Giants--Nov., p. 38  
 Prestressed bridge girders give garage long, clear span--Nov., p. 48  
 A demand for prestressing--Nov., p. 50  
 Roof beams post-tensioned on air terminal building--Nov., p. 58  
 Cranes use long reach to set prestressed beams--Nov., p. 80  
 Prison cell block built of prestressed concrete--Nov., p. 82  
 Prestressing plant on site more than pays for itself--Nov., p. 94  
 Canopy roof design demands new ideas in steel erection--Dec., p. 10  
 Drill foundation shafts--Dec., p. 33  
 Precast facing panels have exposed aggregate--Dec., p. 66  
 Steel rail piles show three advantages on foundation job--Dec., p. 113

## CONVENTIONS

AASHO urges Congress to augment highway fund--Jan., p. 38  
 Highway Research Board holds 38th annual meeting--Feb., p. 16  
 Where will road money come from? (ARBA)--Mar., p. 40  
 AGC convention evaluates present and future problems--Mar., p. 62  
 Better management seen key to profits at AED's 40th annual meeting--Mar., p. 14  
 International Road Congress prepares for Rio meeting--Apr., p. 26  
 Ready-mix, sand and gravel convention sees a good year ahead despite cost problems--Apr., p. 42  
 Prestressing at work--theme of PCI convention--Dec., p. 20  
 AASHO meets amid reports of probe--Dec., p. 34

## DAMS, POWERHOUSES & FLOOD CONTROL

Huge bank of pumps holds key to work on Rocky Reach Dam--Jan., p. 152  
 Power tunnel carved from granite for Fremont Canyon project--Feb., p. 22  
 Well balanced earthmoving fleet keeps dam job ahead of schedule (Thomaston Dam)--Feb., p. 65  
 Huge hydroelectric system is being built on Formosa--Mar., p. 5  
 Big equipment spreads build highest earth dam (Swift Dam)--Mar., p. 76  
 Planning gives contractor edge on work schedule at Priest Rapids Dam--Apr., p. 124  
 Niagara Power Project:  
   Niagara Power Project--a dream come true--May, p. 5  
   Work on industrial water conduit clears way for constructing Niagara intakes, waterways--May, p. 6  
   Benches carved from cliff to seat Niagara powerhouse--May, p. 16  
   Ten million tons of aggregate--May, p. 22  
 Scrapers handle 8-inch rock for dam project (Howard Prairie Dam)--May, p. 108  
 Scrapers work fast cycle on earth-fill dam project--May, p. 143  
 Real cool sand, man (Charlotteburg Dam)--June, p. 42

#### DAMS, POWERHOUSES & FLOOD CONTROL (Cont.)

Steel-pile dam built fast to restore city's water supply--July, p. 5  
Small-watershed work is big business--July, p. 52  
Conveyor system delivers core material to dam--July, p. 74  
Unique shoring system for 58-foot trench--Aug., p. 60  
Scrapers in a river bed--Sept., p. 56  
Portable belt conveyor loads scraper a minute--Sept., p. 60  
Big concrete plant ready for Glen Canyon project--Sept., p. 134  
Wobble feeder separates materials for earth dam (Vega Dam)--Oct., p. 96  
Shaping conduit waterways--a big job at Niagara--Dec., p. 44

#### DEALERS, EQUIPMENT

Conner Limerick: Dealer with a heart for business (Kern-Limerick, Inc.)--Feb., p. 32  
This distributor deals in service (Hodge & Hammond, Inc.)--Mar., p. 86  
Charlie Keller--ambassador to five countries--June, p. 126  
Check Peterson Tractor's setup (Peterson Tractor Co.)--Aug., p. 64

#### DREDGING

Big dredges are answer to big river channel job--Jan., p. 162  
Dredge's suction attachment cleans silt from under piers--Aug., p. 43  
Big dredges dig channel to the Gulf--Sept., p. 44

#### EARTHMOVING

Scrapers, tractors, graders work on academy landscaping--Jan., p. 5  
Scrapers cut through ridges to keep pipeline job moving--Jan., p. 90  
Scrapers work six weeks to place 450,000 yards of surcharge for taxiways--Feb., p. 20

#### EARTHMOVING (Cont.)

Well balanced earthmoving fleet keeps dam job ahead of schedule (Thomaston Dam)--Feb., p. 65  
Earth and structure work tackled simultaneously to rush expressway job--Feb., p. 56  
Draglines tackle big expressway cut--Feb., p. 70  
Big equipment spreads build highest earth dam (Swift Dam)--Mar., p. 76  
Peat excavation problem solved by change in methods--Mar., p. 136  
Two types of equipment spreads handle big muck excavation job--Mar., p. 156  
Old method proves best in compacting granular base for highway grading project--Mar., p. 160  
Borrow is a breeze on relocation work--Apr., p. 5  
Signal lights save lives, dollars on big highway grading project--Apr., p. 70  
Rugged grading on coast highway--May, p. 44  
Contractor beats water-shortage problems on highway grading job--May, p. 76  
One big rock cut worked from both sides with two different methods--May, p. 114  
Scrapers work fast cycle on earth-fill dam project--May, p. 143  
High-powered rigs make time on expressway--June, p. 6  
High production on rock work--July, p. 26  
Small watershed work is big business--July, p. 52  
Tough rigs handle boulders, rock cuts--July, p. 92  
Lime stabilization cuts subbase costs--July, p. 110  
Electric-wheel scrapers meet earthmoving test--Aug., p. 26  
Ripping, blasting finish tough rock job--Aug., p. 54  
Cut-area irrigation simplifies canal job--Aug., p. 70  
High production with small scraper fleet--Sept., p. 34  
Big drilling fleet chews down rock cut--Sept., p. 38  
Scrapers in a river bed--Sept., p. 56  
Compact grade for air-base runway--Sept., p. 86  
Moving dirt at 5 below--Oct., p. 43

## EARTHMOVING (Cont.)

Mammoth fleet to move earth (Dulles International Airport)--Oct., p. 181  
Grade rugged canyon road--Nov., p. 16  
Shaping conduit waterways--a big job at Niagara--Dec., p. 44

## ENGINEERING AND DESIGN

Faster....faster...ten times faster (earthwork computation)--Jan., p. 12  
Highway district offices ease work load with photography--Feb., p. 14  
Soil sampling techniques and tools--Feb., p. 42  
Basic procedures of soil sampling: Part I--Mar., p. 106  
Hot-oil system for asphalt plant also heats stockpile pavement--Mar., p. 139  
Factors affecting concrete uniformity--Apr., p. 52  
Basic procedures of soil sampling: Part 2--Apr., p. 112  
Ganged forms used on sewage-treatment tanks--May, p. 13  
Real cool sand, man--June, p. 42  
Rock sounding-cheap--June, p. 90  
We drive piles--the Soviets shake 'em down--July, p. 22  
And now...a prefabricated road--July, p. 54  
Ordinary concrete meets tough spex--Aug., p. 28  
Corps learns to work with snow and ice--Oct., p. 20  
Watertight deck slab--Nov., p. 86

## GENERAL

Equipment application reports--Jan., p. 15  
Versatile fork-lifts do number of jobs at prestress plant--Jan., p. 82  
Boring rig simplifies pile-driving job--Feb., p. 48  
Contracting firm builds its own twin-engine scraper--Mar., p. 19  
Contractors put tides to work as they build new boat harbor--Mar., p. 32  
Crane and gin pole lift high steel into place for transmission towers--Apr., p. 16

## GENERAL (Cont.)

Eastern college offers AED sponsored course--Apr., p. 34  
New industrial line makes spectacular bow--Apr., p. 142  
New truck line in the spotlight--May, p. 40  
Wood carving project for church is New York's largest in 20 years--May, p. 49  
Uranium concentrator project demands specialty work--May, p. 92  
Bridge guardrails meet four stiff requirements--June, p. 44  
Pile positioner cuts time for pier construction--June, p. 73  
Heavy-media separation passes the test--June, p. 80  
Trailer camp attracts families to remote job--June, p. 122  
Underwater drilling clears way for piles--July, p. 11  
CIMA - a decade of service--July, p. 30  
Small crew builds boat landing ramp--July, p. 98  
Cut-area irrigation simplifies canal job--Aug., p. 70  
Fact lift on ferry slip--Aug., p. 86  
Roy Beal--Top operator--Aug., p. 88  
Retaining wall built by bridge pier methods--Sept., p. 70  
Winter concrete placement completes ICBM base on time--Oct., p. 34  
Pre-watering halts ground-water intrusion on trunk-sewer project--Oct., p. 104  
He'll stick with bridge building (Portrait in Print)--Oct., p. 158  
Avalanche (Howitzer triggers slides for avalanche control)--Oct., p. 13  
Cuba plans to build with native contractors--Dec., p. 8

## HIGHWAYS

Faster....faster...ten times faster (earthwork computation)--Jan., p. 12  
If you can't dig muck--blast it!--Jan., p. 160  
Highway district offices ease work load with photography--Feb., p. 14  
Earth and structure work tackled simultaneously to rush expressway job--Feb., p. 56

## HIGHWAYS (Cont.)

Draglines tackle big expressway cut--  
Feb., p. 70  
Peat excavation problems solved by change  
in methods--Mar., p. 136  
Two types of equipment spreads handle  
big muck excavation job--Mar., p. 156  
Old method proves best in compacting  
granular base for highway grading project--  
Mar., p. 160  
Borrow is a breeze on relocation job--  
Apr., p. 5  
Signal lights save lives, dollars on big  
highway grading project--Apr., p. 70  
Contractor overcomes many complicated  
problems on freeway interchange job--  
Apr., p. 154  
Rugged grading on coast highway--May, p. 44  
Asphalt-stabilized base placed in three  
courses--May, p. 52  
Contractor beats water-shortage problems  
on highway grading job--May, p. 76  
One big rock cut worked from both sides  
with two different methods--May, p. 114  
High-powered rigs make time on expressway--  
June, p. 6  
Separate batching setups supply two paving  
spreads--June, p. 20  
High production on rock work--July, p. 26  
And now...a prefabricated road--July, p. 54  
Tough rigs handle boulders, rock cuts--  
July, p. 92  
Lime stabilization cuts subbase costs--  
July, p. 110  
Highways--an international link--Aug.,  
p. 10  
Mixing water pumped right to paver--  
Aug., p. 132  
High production with small scraper fleet--  
Sept., p. 34  
Big drilling fleet chews down rock cut--  
Sept., p. 38  
Mechanized spread for concrete--Sept.,  
p. 50  
Paving spread geared for top speed--Sept.,  
p. 62  
Grade rugged canyon road--Nov., p. 16  
Sand drains stabilize base for highway  
fills--Dec., p. 14

## MAINTENANCE

Maintenance report from Glen Canyon--  
June, p. 92  
Rust inhibitors--lots of protection  
for little money--June, p. 102  
Field maintenance on a big scale--  
June, p. 104  
Roller and idler rebuilder cuts work  
time on tractors--June, p. 107  
Home-Shop maintenance--June, p. 108  
Contractors sound off on maintenance--  
June, p. 112  
Three-section refinishing setup for  
heavy-duty construction rigs--June,  
p. 114  
Top job performance under rugged  
conditions--June, p. 116  
Countdown for mechanics--June, p. 118  
ABC's of equipment service--July, p. 116  
Big dividends from proper maintenance--  
Oct., p. 64  
Well maintained spread high in avail-  
ability--Oct., p. 106

## MANAGEMENT

Faster....faster...ten times faster  
(earthwork computation)--Jan., p. 12  
Clerical functions: General Ledger--  
Jan., p. 144  
Clerical functions: Timekeeping and  
payrolls--Feb., p. 124  
Clerical functions: Bookkeeping on  
large jobs--Mar., p. 96  
Questions I'm asked about equipment  
leasing--Apr., p. 58  
Purchasing: Fundamentals of the  
Purchasing Department--Apr., p. 131  
Purchasing: Buying for a job--May,  
p. 117  
Big boom in missile base work--June,  
p. 132  
Traffic department saves \$50,000 on  
power-station project--June, p. 140  
Purchasing: Preparing subcontracts--  
June, p. 142  
Purchasing: Special items in sub-  
contracts--July, p. 88  
Plane maintains liaison between office  
and field--July, p. 102  
Purchasing: Cost-plus contracts--  
Aug., p. 30

## MANAGEMENT (Cont.)

A super takes to the air--Aug., p. 82  
 Inspection department: General functions--  
 Sept., p. 53  
 Generally accepted accounting principles  
 for contractors (Part I: The basis for  
 recording income)--Oct., p. 83  
 Inspection Department: Fabricated  
 materials--Oct., p. 152  
 Safety Department: General functions--  
 Nov., p. 21  
 Generally accepted accounting principles  
 for contractors (Part II: Income record-  
 ing)--Nov., p. 98  
 Safety Department: Sanitary code, first  
 aid, and safety rules--Dec., p. 40  
 Generally accepted accounting principles  
 for contractors (Part III: Working  
 capital and equipment)--Dec., p. 106

## PAVING, BITUMINOUS

Profits on low bids made with one spread  
 on two jobs--Jan., p. 76  
 Plant feeds two finishers on interstate  
 highway--Feb., p. 12  
 Complete new runway with jet speed  
 (Olmsted AFB)--Mar., p. 6  
 Small asphalt plant gives peak performance  
 on blacktop project--Mar., p. 12  
 New tricks developed to meet tight spec  
 on AASHTO Road Test--Mar., p. 102  
 Hot-mix paving operation overcomes special  
 problems at new Air Force Academy--Apr.,  
 p. 20  
 Conveyors cut rehandling of asphalt-mix  
 aggregate--Apr., p. 30  
 Aggregate setup produces variety of  
 materials for paving operation--Apr.,  
 p. 74  
 Asphalt-stabilized base placed in three  
 courses--May, p. 52  
 Separate batching setups supply two  
 paving spreads--June, p. 20

## PAVING, CONCRETE

Grading attachment spreads concrete base--  
 Jan., p. 89  
 Unusual paving train hits high production--  
 Jan., p. 36  
 Master paving plan keeps three paving  
 trains moving on tri-level interchange--  
 Feb., p. 132  
 High-output concrete plant feeds multi-  
 paver spreads--Apr., p. 6  
 More speed for a paving train--June, p. 60  
 Keep batch plants as modern as today--  
 July, p. 24  
 Paving train turns in smooth job--  
 July, p. 46  
 Mixing water pumped right to paver--  
 Aug., p. 132  
 Mechanized spread for concrete--Sept.,  
 p. 50  
 Paving spread geared for top speed--  
 Sept., p. 62  
 Efficient spread paves new beltway--  
 Oct., p. 150  
 Ready-mix concrete paves interstate  
 route--Dec., p. 70

## PIPELINES

Scrapers cut through ridges to keep  
 pipeline job moving--Jan., p. 90  
 Big tractors rip rock for gas pipeline  
 crew--Mar., p. 48  
 Two-mile pipeline job clears way for  
 work on reservoir dam--May, p. 128  
 Pipe pushed under highway--inexpensively--  
 Aug., p. 50  
 Mountaintop reservoir of plastic-coated  
 pipe--Aug., p. 94  
 Mobile offshore platform lays underwater  
 pipeline--Sept., p. 80  
 Gigantic crane handles heavy concrete  
 pipe--Sept., p. 88

## PRESTRESSED AND PRECAST CONCRETE

Versatile fork-lifts do number of jobs at prestress plant--Jan., p. 82  
Assembly-line precasting speeds construction of Mississippi River model--May, p. 28  
Post-tensioning for taxiway pavement (Biggs AFB)--Nov., p. 27  
Bridge span is post-tensioned--Nov., p. 32  
New home for the Giants--Nov., p. 38  
Prestressed slabs are slip-formed--Nov., p. 44  
Prestressed bridge girders give garage long, clear span--Nov., p. 48  
A demand for prestressing--Nov., p. 50  
Roof beams post-tensioned on air terminal building--Nov., p. 58  
Prestress plant stresses quality--Nov., p. 64  
A steady market for box girders--Nov., p. 70  
Cranes use long reach to set prestressed beams--Nov., p. 80  
Prison cell block built of prestressed concrete--Nov., p. 82  
Watertight deck slab--Nov., p. 86  
Steel bars simplify girder post-tensioning--Nov., p. 90  
Prestressing plant on site more than pays for itself--Nov., p. 94  
Precast facing panels have exposed aggregate--Dec., p. 66

## TUNNELS

Air guns do swift job placing concrete for tunnel lining--Jan., p. 136  
Power tunnel carved from granite for Fremont Canyon project--Feb., p. 22  
Tunneling crews beat job schedule on new Hawaiian tube--Feb., p. 50  
Unusual methods the rule on discharge-pipeline job--Mar., p. 20  
Urban tunnel completed through efficient work on small sections of job--Mar., p. 30  
Tunnel men take on Mont Blanc--July, p. 66  
Sub beats the heat on diversion tunnel--Sept., p. 64  
Concrete pumped to forms for the Glen Canyon tunnels--Dec., p. 50

## REGULAR MONTHLY FEATURES

### Avoid Legal Pitfalls

Jan., p. 94--Feb., p. 77--Mar., p. 72--  
Apr., p. 76--May, p. 89--June, p. 55--  
July, p. 62--Aug., p. 74--Sept., p. 73--  
Oct., p. 86--Nov., p. 106--Dec., p. 56

### Business Comment

Sept.-Dec., p. 5

### Construction Camera

Jan., p. 156--Feb., p. 10--Mar., p. 164--  
Apr., p. 150--May, p. 186--June, p. 144--  
July, p. 146--Aug., p. 134--Sept., p. 138--  
Oct., p. 154--Nov., p. 100--Dec., p. 108

### Convention Calendar

Jan., p. 74--Feb., p. 54--Mar., p. 75--  
Apr., p. 73--May, p. 123--June, p. 117--  
July, p. 65--Aug., p. 69--Sept., p. 85--  
Oct., p. 95--Nov., p. 88--Dec., p. 74

### Distributor Doings

Jan., p. 122--Feb., p. 32--Mar., p. 86--  
Apr., p. 34--May, p. 34--June, p. 124--  
July, p. 56--Aug., p. 64--Sept., p. 40--  
Oct., p. 164--Nov., p. 140--Dec., p. 117

### Editorial

Jan.-Dec., p. 4

### Labor Review

Jan., p. 34--Feb., p. 41--Mar., p. 152--  
Apr., p. 57--May, p. 50--June, p. 53--
